

**A BILL TO SUBSIDIZE CRISPR RESEARCH AND USAGE IN HUMANS**  
BE IT ENACTED BY THE STUDENT CONGRESS HERE ASSEMBLED THAT:

**SECTION 1.** The federal government shall use tax dollars to fund the research and implementation of CRISPR technologies on human cells with the ultimate goal of providing affordable gene-editing services for the American public.

**SECTION 2.** A. "Tax dollars" shall be defined as federal revenue collected from US citizens.

B. "CRISPR," which stands for clustered regularly interspaced short 7 palindromic repeats and is a gene-editing tool, shall be defined as unusual DNA sequences that protect organisms by identifying and attacking viruses.

C. "Fatal diseases" shall be defined as potentially-deadly ailments CRISPR has already been tested on, such as HIV, as well as future test subjects, such as zika and cancers.

**SECTION 3.** The Center for Disease Control and Prevention shall partner with publicly-funded universities to carry out CRISPR research and human implementation.

**SECTION 4.** This bill shall take effect upon the renewal of the US's fiscal year in September 2017.

**SECTION 5.** All laws in conflict with this legislation are hereby declared null and void.

*Respectfully submitted,*  
*Rep. Cassidy Bins*
